Cloud Practitioner Program Guide

Welcome to the program!

Whether you want to communicate more effectively with stakeholders and customers, or prepare for advanced role-based AWS Certifications, earning your AWS Certified Cloud Practitioner is the first step in your cloud journey.

Over the next four weeks, you'll build a strong foundation on core solution concepts, AWS services, and the overall value proposition of the AWS Cloud. This program gives you access to digital curriculum, optional interactive learning opportunities, and live study sessions with AWS Subject Matter Experts who will help you:

✓ Leverage supplemental content to understand key exam topics

✓ Develop an exam strategy to set you up for success

✓ Apply knowledge and test concepts through a series of practice exam questions

Who should participate?

The AWS Certified Cloud Practitioner does not require prior IT or cloud experience and is a great way to certify your foundational understanding of the AWS Cloud. This program is open to all AWS Partners.

How do I get started?

Step 1: Make sure you have registered for the live study sessions .

Step 2: Set up your AWS Partner Network (APN) account using your business email.

Step 3: Sign into AWS Skill Builder using the APN account credentials you created in Step 2.

Having problems? Watch this video.

We'll see you at the program kickoff on **Wednesday, June 5 at 2:00 am CET**

Frequently Asked Questions (FAQs)

Will the live session be recorded and will the presentation deck be shared?
An on-demand session will be shared with registered participants via email, however we do not share the presentation deck for this program.

What should I do if I receive a 403 error when accessing courses in AWS Skill Builder?
Make sure that you choose to log into Skill Builder as an AWS Partner and enter your APN Partner Central account information. Learn how to sign into AWS Skill Builder as a partner by watching this short video.

How do I register for the AWS Certified Cloud Practitioner exam?
To register for an exam, create an account or sign in at aws.training/certification, then navigate to Exam Registration and follow the prompts. Still need help? Get step-by-step guidance on how to register for an exam as an AWS Partner.

How much does the AWS Certified Cloud Practitioner exam cost?
The AWS Certified Cloud Practitioner exam fee is 100 USD.

Does this program include an exam voucher?
No, the PartnerCast team do not provide exam vouchers. Please reach out to your organization's Learning and Development team for guidance on purchasing and expensing your voucher.

What if I fail the exam on my first attempt?
If you fail an exam, you must wait 14 days before you are eligible to retake the exam. There is no limit on exam attempts, however you must pay the full registration fee for each exam attempt.

How do I share my AWS Certification achievement with my employer?
Watch this video tutorial to learn how to provide consent for your employer to view your certifications.

My AWS Certification account name doesn't match my legal ID. How can I update my profile?
To change your name on your AWS Certification Account, submit a ticket to the AWS Training and Certification Support team. Select *Account Assistance* as the inquiry type and *Name Change* as the additional details, and include the requested information in the description. If needed, our Support team will request documentation to process the edit. Once all necessary information is submitted, allow up to two days for the change to be processed.

Who should I contact if I experience technical issues?
Having issues with Skill Builder? Review the AWS Skill Builder support website or contact support with specific details about the challenge you're encountering.

Experiencing issues with APN Partner Central? Contact the APN Support team directly.
